Market commentary

Global equities advanced over the quarter as inflation data continued to moderate and several central banks signalled the end of their tightening cycles. Sovereign bond yields fell modestly at the long end, while credit spreads were broadly unchanged. Sterling weakened against the euro and the US dollar.

Emerging markets lagged developed markets as commodity prices softened. Within equities, quality and low-volatility factors outperformed. The committee notes continued net outflows from short duration strategies as clients extended duration.

Fund overview

Assets under management at quarter end and prior-quarter (Q2 2026) net returns for reference.

Fund	Launch	Benchmark	AUM (EUR m)	Q2 2026 net
Aurora Sustainable Equity Fund	2017	MSCI World ESG Leaders	1,284.6	2.91%
Meridian Global Bond Fund	2009	Bloomberg Global Aggregate (hedged)	2,107.3	0.64%
Harbourline UK Income Fund	2004	FTSE All-Share	846.9	1.88%
Cobalt Emerging Markets Fund	2012	MSCI Emerging Markets	512.4	3.42%
Northgate Multi-Asset Balanced Fund	2015	Composite 60/40	1,931.0	1.57%
Larchmont Short Duration Credit Fund	2019	ICE BofA 1-3Y Euro Corporate	688.2	0.81%

Share classes shown are the institutional accumulation classes (I Acc). Returns are net of fees in EUR. Full performance for the quarter under review is on page 3.

Performance

Net returns to 30 September 2026, I Acc share class, EUR. Periods over one year are annualised.

Fund	Q3 2026 net	Benchmark Q3	Relative	1 year	3 years p.a.	5 years p.a.
Aurora Sustainable Equity Fund	4.37%	3.85%	+0.52%	12.64%	8.73%	9.18%
Meridian Global Bond Fund	1.42%	1.55%	-0.13%	3.27%	1.96%	0.48%
Harbourline UK Income Fund	2.06%	2.31%	-0.25%	7.92%	6.15%	5.66%
Cobalt Emerging Markets Fund	-0.74%	-1.12%	+0.38%	4.09%	2.84%	3.37%
Northgate Multi-Asset Balanced Fund	2.69%	2.52%	+0.17%	8.35%	5.29%	5.94%
Larchmont Short Duration Credit Fund	0.93%	0.89%	+0.04%	4.46%	2.43%	1.71%

Aurora Sustainable Equity outperformed on stock selection in industrials and healthcare. Meridian Global Bond trailed its benchmark marginally owing to an underweight in long-dated US Treasuries.

Asset allocation and top holdings

Northgate Multi-Asset Balanced Fund: allocation at quarter end.
